70.6%

PROJECTS

Travel Management Project Self-based

Oct 2025- Dec 2025

Developed a Travel Management System to simplify trip planning, booking, and customer management through an easy-to-use digital platform. The system helps users efficiently organize travel details, manage reservations, and access trip information in one place. Focused on creating a user-friendly experience with smooth navigation and secure data handling. The project enhanced overall travel management efficiency and improved customer convenience.
